Node red creation

The screenshot displays the Node-RED web interface. The main workspace, titled "Flow 1", contains a simple flow with two nodes: an "inject" node (blue) and a "msg.payload" node (green). The "inject" node is connected to the "msg.payload" node. The left sidebar shows the "common" and "function" node categories. The right sidebar shows the "info" panel, which includes a search bar, a list of flows (Flow 1), and a section for "Flow 1" showing its ID as "cd2a84c750274c77".
